ELEMENTARY OPEN HOUSE/ORIENTATION

We are excited to welcome you back for the 2023-2024 school year at the Elementary Open House/Orientation on Wednesday, August 16, 2023 from 12:00 p.m. to 7:00 p.m. at the Markesan Elementary School. Elementary teachers will be mailing you more information this summer.

Network Photography will be here to take school pictures during open house, picture information will be sent to you in August.

GRADE 6 ORIENTATION

Orientation for incoming 6th grade students will be Monday, August 14 from 8:30-11:00 a.m. Parents can drop off students at the main high school entrance.

MIDDLE AND HIGH SCHOOL OPEN HOUSE

Open House at the middle and high school will be Wednesday, August 16 from 12:00-7:00 p.m.

- Students can bring school materials to their lockers, meet their teachers for the 23-24 school year, and get a parking permit.
- Parents can pay school fees, make lunch deposits, and get athletic passes during this time as well.

ATTENTION ATHLETES AND PARENTS

Middle and high school students who are planning to participate in a sport must have either a physical or alternate year card turned into the office before the first day of practice.

- A physical must be completed every other year and signed by a physician.
- It is important to note that students cannot practice until a card has been returned to the middle/high school office.
- An alternate year card must be completed and signed by the student's parent or guardian on years that a physical is not required.
- These forms can be obtained from the head coach or from the middle/high school office between the hours of 7:00 a.m. to 4:30 p.m. (M-TH) and 8:00 a.m. to 12:00 p.m. on Friday.
- A pre-season concussion screening must be conducted this year. This test is conducted by the Licensed Athletic Trainer prior to the start of the season. The date for the Impact test will be Tuesday, August 1 at 4:30 p.m. in the high school gym. Athlete must download the SWAY app on their phone or Ipad prior to this date.

ATHLETES AND PARENTS MEETING

On Wednesday, August 16 at 5:30 p.m., parents and athletes are strongly encouraged to attend a co-curricular meeting that will address topics related to the upcoming 23-24 high school sports seasons. Topics of discussion will include; co-curricular handbook, student-athlete expectations, concussion information, and questions from the floor. This meeting will be held in the middle school gym.

MENINGOCOCCAL DISEASE PROTECT YOUR CHILD

Public health authorities recommend that teenagers and college-bound students be immunized against a potentially fatal bacterial infection called meningococcal disease, a type of meningitis.

Meningococcal disease refers to any illness caused by bacteria called *Neisseria meningitidis*, also known as meningococcus [muh-ning-goh-KOK-us]. These illnesses are often severe and can be deadly. They include infections of the lining of the brain and spinal cord (meningitis) and bloodstream infections (bacteremia or septicemia).

These bacteria spread through the exchange of respiratory and throat secretions like spit (e.g., by living in close quarters, kissing). Doctors treat meningococcal disease with antibiotics, but quick medical attention is extremely important. Keeping up to date with recommended vaccines is the best defense against meningococcal disease. Keeping up-to-date with recommended immunizations is the best defense against meningococcal disease. There are several vaccines that protect against the different types of N.

meningitidis bacteria. Three vaccines protect against four of the five types (A, C, Y, and W-135). The Advisory Committee on Immunization Practices (ACIP) recommends children get their first dose of meningococcal vaccine when they are between 11 and 12 years and get a booster dose when they are 16 years of age. Two vaccines protect against the fifth type of N. meningitidis bacteria, strain B. The ACIP recommends this vaccine be given to people aged 16-23 years. The ideal age to vaccinate is between 16 and 18 years, to provide protection when individuals are at greatest risk of getting meningococcal disease. If a teenager missed getting the vaccine altogether, they should ask their healthcare provider about getting it before graduation, especially if they are about to move into a college dorm or military barracks.

About Meningococcal Disease

There are multiple serogroups of *Neisseria meningitidis*. Serogroups B, C, and Y cause the majority of disease in the United States. Serogroup W and nongroupable strains cause a small portion of disease.

Meningococcal disease is often misdiagnosed as something less serious because early symptoms are similar to common viral illnesses. Symptoms of meningococcal disease may include high fever, severe headache, stiff neck, nausea, vomiting, sensitivity to light, confusion, exhaustion and/or a rash. The disease can progress rapidly and can cause death or permanent disability within 48 hours of initial symptoms.

Rates of meningococcal disease have been declining in the United States since the late 1990s. In 2017, there were about 350 total cases of meningococcal disease reported (incidence rate of 0.11 cases per 100,000 persons). Anyone can get meningococcal disease, but rates of disease are highest in children younger than 1 year old, with a second peak in adolescence. Among adolescents and young adults, those 16 through 23 years old have the highest rates of meningococcal disease.

Meningococcal disease is spread through direct contact with respiratory and/or oral secretions from infected persons (for example, kissing or sharing

drinking containers). It can develop and spread quickly throughout the body, so early diagnosis and treatment are very important. Even with immediate treatment, the disease can kill an otherwise healthy young person within hours of first symptoms. Of those who survive, up to 20 percent may endure permanent disabilities, including brain damage, deafness and limb amputations.

Lifestyle factors common among teenagers, college students and military personnel are believed to put them at increased risk of contracting meningococcal disease. These lifestyle factors include crowded living situations (for example, dormitories, sleep-away camps), active or passive smoking and irregular sleeping habits. Teens should avoid sharing eating utensils and drinking out of the same container, since infections may spread through this type of close contact.

To learn more about meningococcal disease, vaccine information, and public health resources search Center for Disease Control and Prevention meningococcal meningitis information or Voices of Meningitis.

FLAG FOOTBALL-GRADES 3rd-6th SIGN UP

Any 3rd thru 6th grade boy or girl who is interested in playing flag football please return this form to either Markesan High School or Elementary School. The season will begin Saturday morning September 9 at 9:00-10:30 a.m. on the High School Game Field (weather permitting). The season will run until October 7th (5 Saturdays). Markesan District Schools is required to locate, identify, and evaluate all children, with disabilities, including children with disabilities attending private schools in the school district, and homeless children. The process of locating, identifying, and evaluating children with disabilities is known as child find.

This agency conducts the following child find activities each year. Child Development Days, Kindergarten Screening and upon request the school district will screen any resident child who has not graduated from high school to determine whether a special education referral is appropriate. This notice informs parents of the records the school district will develop and maintain as part of its child find activities. This notice also informs parents of their rights regarding any records developed.

The school district gathers personally identifiable information on any child who participates in child find activities. Parents, teachers, and other professionals provide information to the school related to the child's academic performance, behavior, and health. This information is used to determine whether the child needs special education services. Personally identifiable information directly related to a child and maintained by the school is a pupil record. Pupil records include records maintained in any way including, but not limited to, computer storage media, video and audiotape, film, microfilm, and microfiche. Records maintained for personal use by a teacher and not available to others and records available only to persons involved in the psychological treatment of a child are **not** pupil records.

The school district maintains several classes of pupil records.

•"Progress records" include grades, courses the child has taken, the child's attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.

•"Behavioral records" include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil's behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening records, law enforcement officers' records, and other pupil records that are not "progress records." Law enforcement officers' records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child's parents, the school district destroys the information that is no longer needed.

•"Directory data" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently previously attended by the student.

•"Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil's physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age ("eligible students") the following rights with respect to education records:

ANNUAL NOTICE OF SPECIAL EDUCATION REFERRAL AND EVALUATION PROCEDURES—Markesan District Schools

Upon request, the Markesan School District is required to evaluate a child for eligibility for special education services. A request for evaluation is known as a referral. When the district receives a referral, the district will appoint an Individualized Education Program (IEP) team to determine if the child has a disability, and if the child needs special education services. The district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private (including religious) schools, elementary schools and secondary schools located in the school district.

A physician, nurse, psychologist, social worker, or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to refer the child, including a homeless child, to the school district in which the child resides. Before referring the child,

•**The right to inspect and review the student's education records within 45 days of receipt of the request.** Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

•**The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading.** Parents or eligible students may ask Markesan School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

•**The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent.** The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to (m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.

•**The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.** The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

the person making the referral must inform the child's parent that the referral will be made.

Others, including parents, who reasonably believe a child is a child with a disability may also refer the child, including a homeless child, to the school district in which the child resides.

Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Kara Olson, Director of Special Education, Markesan District Schools, at 1-920-398-4351, or by writing her at 100 E. Vista Blvd, PO Box 248, Markesan, WI 53946-0248.
